

# Belong Values

To provide high quality supported living through Belong villages based on a set of core values;

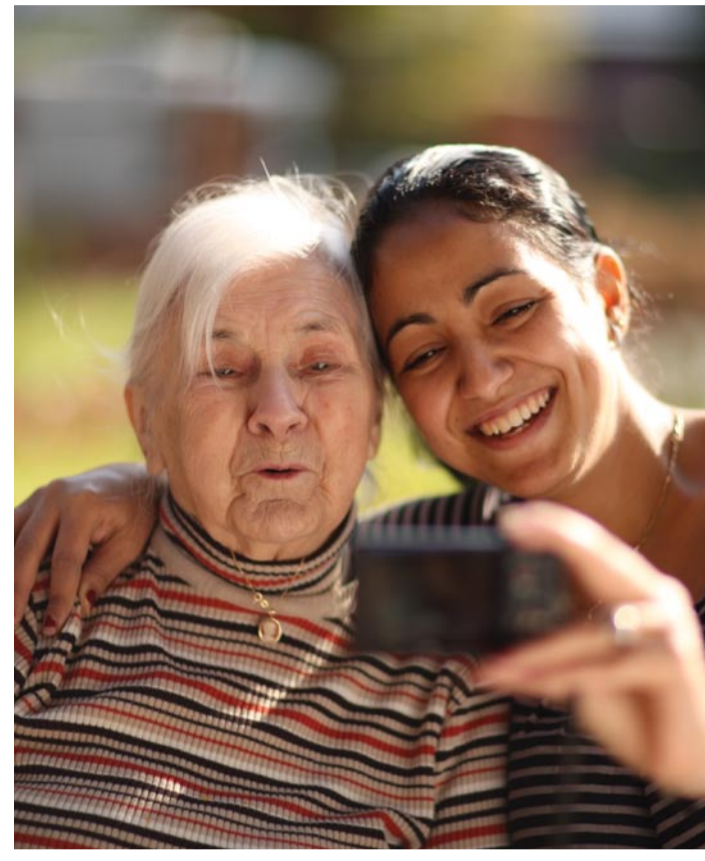

## People feel secure and experience a sense of belonging

People are supported to live a lifestyle that is familiar, comfortable and safe, so that they experience a change of address, not a change of lifestyle.

## We all work together to create purpose and meaning to the day

People are valued as equal partners in the village.

## Everyone has access to human companionship and the opportunity to develop friendships

Everyone is made to feel welcome and we encourage social interaction.

## People are free to make decisions and choices

Decisions within Belong reflect the realities of life. Services are planned the customer taking the lead.

## Honest, spontaneous and fun

Every day is different and there is always something to do.

## Caring and sharing

Belong creates opportunities for the customer to support others as well as receive.

## Active and independent lifestyles

Recognise the potential in everyone and create environments where life revolves around purposeful activity.

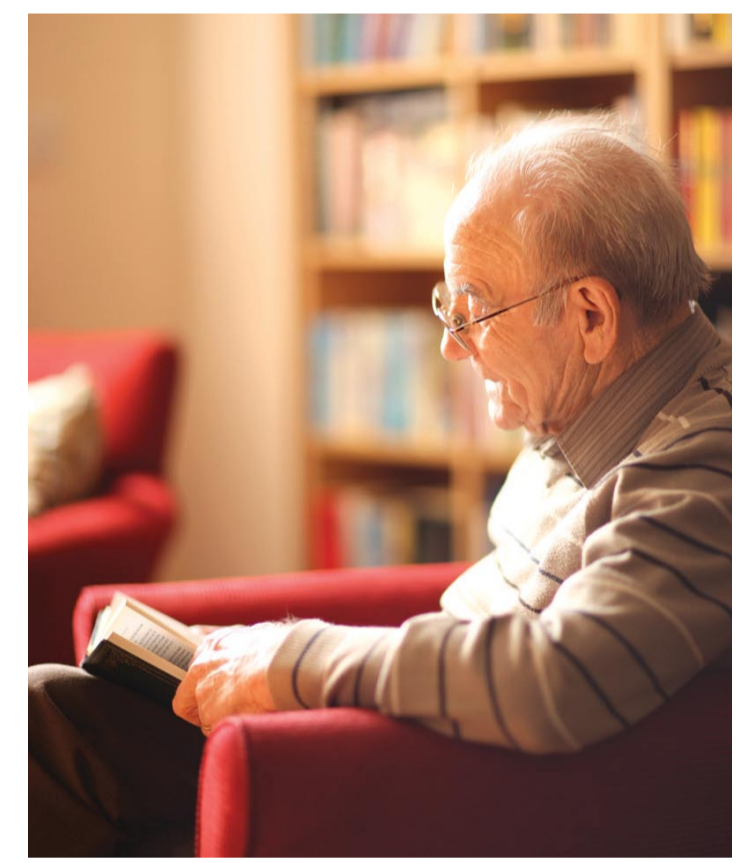

## Be yourself

Everyone is an individual and will be valued as such.

## Holistic environments with pets, plants and children

Therapeutic activity is valued, companionship with pets encouraged and intergenerational activity promoted within the community.

## Value privacy and dignity for all

We create living environments that meet the private needs of individuals, with larger communal spaces to accommodate the more public needs of the community.

*We expect all of our staff to respect the individuality of everyone and be committed to the quality of life of our customers and to the Belong values.*

Your life, your pace, your way.
